

POP-UP TAG SUITE SPECIFICATIONS

Model	Argos	Archive	Accelerometer	Depth	Temperature	Light Level	Life (days)	L x Ø (mm)	Weight (g)
MiniPAT	✓	✓	Archive Only	✓	✓	✓	730	124 x Ø 38	60
Survivorship PAT	✓	✓		✓	✓	✓	30, 45 or 60	124 x Ø 38	60
Mark-Report PAT	✓				✓		730	127 x Ø 28	40

Pop-up satellite archival tags provide a fisheries-independent measure of animal movement. They are attached externally via anchor and tether. At a preprogrammed time they release, float to the surface, and transmit their data payload to Argos satellites. While floating, the center of buoyancy and mass allows the antenna to extend upward toward the sky.
